12 th , 2014	Jharkhand Academic Council, Ranchi	PHY, CHEM, MATH	48.4%
10 th , 2011	Jharkhand Academic Council, Ranchi	Maths and Science	80.8 %

Project Thesis

Project Title	Program Requirements.
Period	July 2020 to till date.
Client	BNP Paribas Bank.

Description	<p>This project involved Customization like Module/Objects, Validation rules, workflows, Data migration, CLI Process , Integration with UI and Oracle systems using PyCharm tools.</p> <p>A program will be used to facilitate the management of a specific group of leads and clients. The purpose of a program is to acquire or expand a relationship across banking, insurance and investments. To support program management we need to create a centralized location of all entities or individuals associated with a managed program. The current programs in production include Executive Call Group (ECG), NBA Top 120 (now Community Action Plan) and Paribas @ Work. Programs will facilitate the displaying, grouping and performance of a focused list of managed leads and clients to SFDC Users.</p>
Role	Python developer
Responsibilities	<ul style="list-style-type: none"> • Gathering of requirements form client. • Analysis of feasibility of given requirements and map the requirements to application architecture. • Unit testing to verify implementation. • Project documentation (LLD). • Involvement in preparing UTC, UTP & UTR. • Prepared KEDB document. • Groomed new team-members.
Technology	Python, Django, MySQL, Oracle

Strengths

Good communication / presentation skills and interacted effectively with client, internal teams for various application activities.

Quick learner and willingness to learn new concepts/technologies

Can perform as a team as well as individual when needed.

Flexible on work locations and shift timings.
